Hello

2018 so far...

2018 has been a transformational year for our Financial Services Group. We have expanded into new jurisdictions, invested heavily in people, developed new strategic partnerships, created a new Governance, Risk and Compliance Framework that delivers excellent customer outcomes, deployed a number of exciting new technologies and won a number of key clients.

As ever none of this would be possible without the hard work and commitment of our staff and the loyalty of our clients. So thanks to you all.

Scotland

Following regulatory approval from the Law Society of Scotland to become a multi-national practice, we have opened an office in the heart of Edinburgh's financial district, as part of our strategy to provide a service offering across UK jurisdictions to financial services clients.

Putting Customers at the heart of our business

Our new Customer Priority Team (CPT) is dedicated to assisting vulnerable customers in financial difficulty and benefits from specialist training, resource and technology. The CPT is complemented by a new Governance, Risk and Compliance Team. The development of our existing Risk Function sees a new three person team charged with delivering a refreshed management framework and overhauled three Lines of Defence model and has seen senior lateral hires from both Lloyds Banking Group and JP Morgan.

Deployment and development of our successful partnership with PayPlan and the Totemic Group has allowed us to deliver a more holistic debt management approach with referrals to PayPlan helping customers to deal with multiple debts and financial hardship and Totemic's technology making the whole affordability assessment customer journey a much better one.

Technology

We have continued to enhance our proprietary

technology throughout 2018. The last few months have seen significant progress with our new Case Management System, Speech Analytics and the utilisation of Open Banking technology in the assessment affordability.

New offices

Our new National Headquarters in Leeds continues to take shape. The acquisition and £10m fit out of 76,000 square foot on Leeds' Wellington Street will open in Q2 of 2019 and will offer a state of the art national centre of excellence for staff and clients (look out in particular for the new 'Client Lounge'!). Not content with one new office, as mentioned above, we were delighted to open the doors at Lochrin Square in Edinburgh in June. Our Scottish office allows us to continue to implement our strategic objective of delivering complete UK legal coverage by the end of the year.

Investing in our people

All collections and recoveries staff will be CSA Collections Accreditation Initiative qualified very shortly and all Financial Services Group staff are now CSA Compliance Essentials quality approved: demonstrating our commitment to having the most regulatory aware team in the industry. We have also partnered with the CSA to roll our Modern Apprenticeships across the Financial Services Group at all levels - leading to Diploma level qualifications in Compliance, Collections and Finance.

Walker Morris Heads of Legal Club

Last but not least, we are delighted to be working with UK Finance to establish a new 'Walker Morris UK Finance Heads of Legal Club'. The Club will offer an industry forum for Heads of Legal to meet, discuss issues of the day and network out with London (watch out for events scheduled in Leeds, Manchester and Edinburgh in 2018 and 2019).
