

CARBON REDUCTION PLAN

(PPN 006)

Supplier name:	Walker Morris LLP
Publication date:	May 2026

Commitment to achieving NetZero

Walker Morris is committed to achieving NetZero emissions by 2040.

Baseline emissions footprint – baseline year: 2022

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Additional details relating to the baseline emissions calculations:

No previous years emissions calculations. Calculated baseline in 2022 for an SBTi submission.

Emissions	Total (tCO ₂ e)
Scope 1	0.1
Scope 2	0.0
Scope 3 (Categories 1,2,3,4,5,6,7,13)	1,950
Total emissions	1,950

Current emissions reporting – reporting year: 2025

Emissions	Total (tCO ₂ e)
Scope 1	0.0
Scope 2	0.0
Scope 3 (Categories 1,2,3,4,5,6,7,13)	2,022
Total emissions	2,022

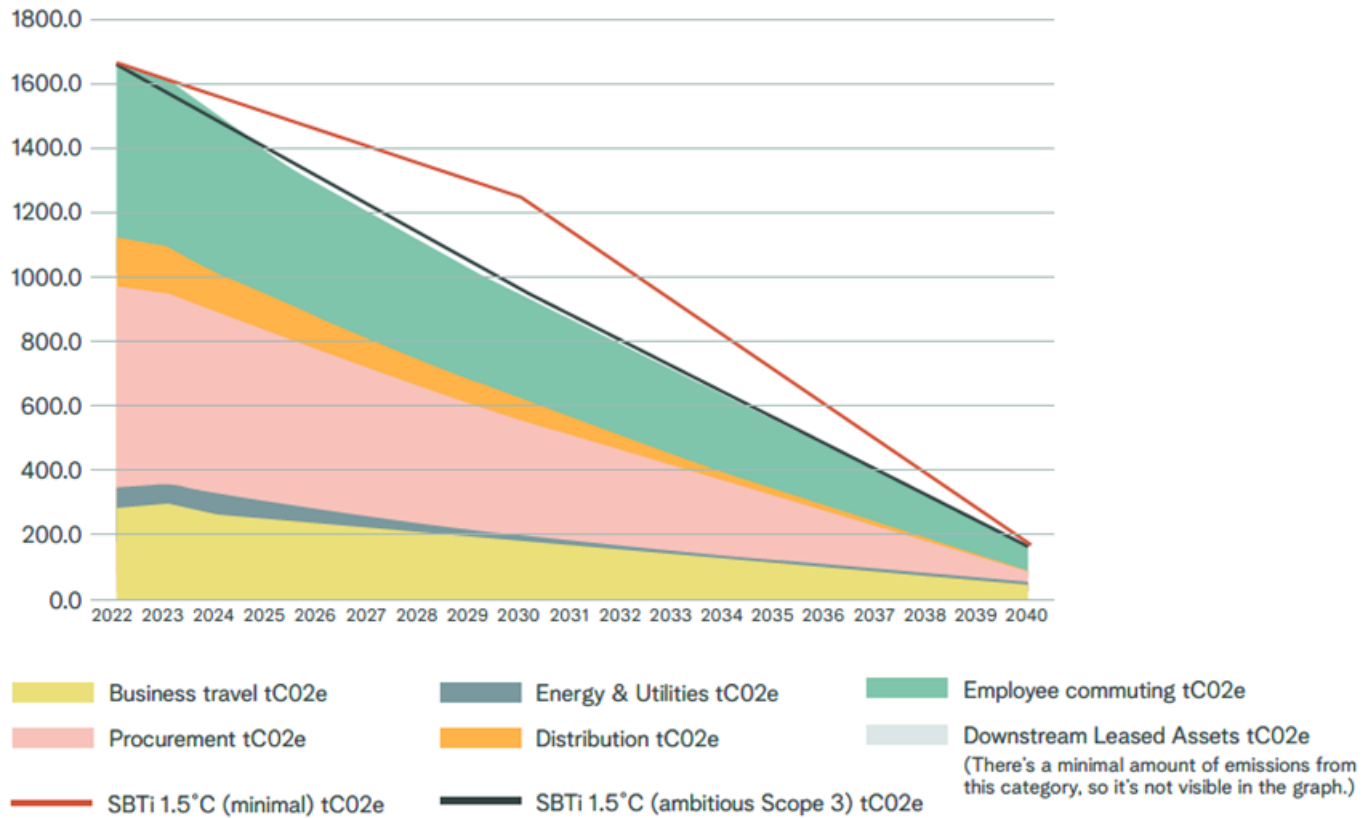

Emissions reduction targets

In order to continue our progress to achieving net zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease by 42% by 2030 and 90% by 2040. These targets have been validated by SBTi.

Projected Market-Based by Category

Carbon reduction projects

Completed carbon reduction initiatives

The following environmental management measures and projects have been completed or implemented since the 2022 baseline. The carbon emission reduction achieved by these schemes cannot be quantified at the moment. The measures will be in effect when performing the contract.

- Published a Net Zero Strategy and targets that has been approved by SBTi.
- Zero waste to landfill
- Installed EV chargers in our car park
- Introduced EV scheme for Partner vehicles
- Introduced a car share parking scheme
- Introduced print management software improvements
- Increased the temperature setpoints in our server room
- Purchasing certified zero carbon energy

Future carbon reduction initiatives

- Voltage Optimisation
- Building Management System Optimisation

Declaration and sign off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Simon Clark (Partner & General Counsel)
